

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: : Lab 1 Part A — Uninformed Search Algorithms & Lab 1 Part B — Informed Search Algorithms

Student Name: _____ Gina Asang Gana _____

Student ID: _____ 40962028 _____

GitHub Repository Link: _____

Date Submitted: _____ 20th June 2026 _____

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	Yes
Estimated percentage of the work influenced by AI	20%
Did you attach evidence of AI use where applicable?	Yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ChatGPT	Understanding the lab problem and search algorithms	"Hello I am doing my lab. It's intro to ai lab and it's on searching algorithms" and sharing the lab specification.	Initial understanding of the drone pathfinding problem and search framework.	Read the lab instructions and implement the required classes independently.
ChatGPT	Understanding Python data structures Understanding search data structures	"How do u look through a tuple", "I meant a dictionary of tuples", "what if I want to loop through the keys and values but the value is a tuple and I want to access each	Understanding Python dictionaries, tuples, and iteration. Understanding BFS queues and node representation.	Practiced and tested the concepts in my own code. Verified concepts against lecture notes and

		element in the tuple" "how do i create a fifo queue", "what is the difference between initial node and state", "how to create initial node"		implementation requirements.
Chatgpt	Understanding AIMA search concepts	"Briefly explain to me how the AIMA-style EXPAND (problem, node) works"	Understanding the EXPAND procedure used in search algorithms.	Compared the explanation with the AIMA-style pseudocode provided in the lab.
ChatGPT	Debugging search algorithm implementation	"debug if error: def expand(self, problem: Problem, node: Node) -> Iterable[Node]:" followed by my code snippet.	Development of the SearchAlgorithm.expand method.	Tested the code and corrected issues myself before submission.
ChatGPT	Understanding algorithm implementation details	"Why this: actions(s) my method name is actions", "what is the purpose of yield in the expand method", "so what is the use of yield in python and how is it used", "I don't understand explain in context"	Understanding generators and algorithm implementation.	Applied the explanation to my own implementation and verified through execution.
ChatGpt	Generating experimental test maps	"Please i want u to generate sample maps for me", "generate 3 of the map grids for me"	Creation of obstacle maps for testing search algorithms.	Reviewed and selected suitable maps, then tested them using my implementation.

ChatGPT	Designing experiments to compare algorithms	"Running my code, I can't really see a huge difference with all 4 informed search algo" and requests for maps that highlight differences.	Experimental design and evaluation strategy.	Ran the algorithms and used actual results from my program rather than relying solely on AI suggestions
Chatgpt	Choosing start and goal states	"I need a start state and goal state for each of the maps in order to see visible results in difference"	Configuration of test scenarios.	Tested the suggested states and adjusted if necessary.

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft	yes	Prompts at the top
Prompt history	no	
Screenshot of AI interaction	no	Screenshots.pdf
Exported AI conversation	no	
AI-generated code snippet	no	
Revised version showing student input	no	

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	Yes
Any use of AI tools has been clearly declared in this form.	Yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	yes
My AI usage does not exceed 25% of the entire work.	yes

I understand that undeclared or excessive AI use may be treated as academic misconduct.	yes
